

ASX ANNOUNCEMENT

Silver City secures new tenements in New Zealand

Highlights

- **Silver City granted tenements in North Island, New Zealand through a competitive tender process.**
- **Planned exploration programs designed to test for high grade epithermal gold-silver deposits**

Silver City Minerals Limited (ASX:SCI) is pleased to announce that it has been granted two mineral exploration tenements for a total area of approximately 94 square kilometres located in the North Island of New Zealand approximately 35 kilometres to the east of Rotorua.

Minerals Exploration Permit 56212 was granted for a period of five years and was awarded through a competitive tender process. Minerals Prospecting Permit 56147 was granted for a period of two years and lies adjacent and to the east of the Exploration Permit.

The new tenure is considered by the Company to be prospective for gold and silver deposits hosted in an epithermal setting. An initial program of low cost geological mapping and sampling is anticipated late 2014.

SILVER CITY MINERALS LIMITED

Christopher Torrey
Managing Director

Competent Person

The information in this report that relates to Exploration Results is based on information compiled by Chris Torrey (BSc, MSc, RPGeo.) who is a member of the Australian Institute of Geoscientists. Mr Torrey is the Managing Director, a shareholder and full time employee of Silver City Minerals Limited. Mr Torrey has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a "Competent Person" as defined by the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Torrey consents to the inclusion in this Report of the matters based on this information in the form and context in which it appears.

ABOUT Silver City Minerals Limited

Silver City Minerals Limited (SCI) is a base and precious metal explorer with a strong focus on the Broken Hill District of western New South Wales, Australia. It takes its name from the famous Silver City of Broken Hill, home of the world's largest accumulation of silver, lead and zinc; the Broken Hill Deposit. SCI was established in May 2008 and has been exploring the District where it controls Exploration Licences through 100% ownership and various joint venture agreements. It has a portfolio of highly prospective projects with drill-ready targets focused on high grade silver, gold and base-metals, and a pipeline of prospects moving toward the drill assessment stage. The Company continues to seek out quality projects for exploration and development. It has ventured to North Queensland where it has entered into a Farm-in and Joint Venture Agreement with a private consortium to explore for large intrusion-related gold deposits. It has also been granted tenements in New Zealand to explore for epithermal gold deposits.
